Spanish

Experience Summary

Portuguese-Dutch environmental consultant with a varied background and unique ability in understanding different cultures. Peter's background in civil engineering has allowed him to adapt quickly to unique situations, identify problems, and offer solutions.

Representative Projects

- **Environmental Management:** Carried out more than 100 environmental reviews for single/multi-let industrial assets across the Netherlands for Mileway and M7 Real Estate as part of an ongoing environmental management program.
- **Environmental Due Diligence:** Carried out Environmental Due Diligence for industrial and office assets for Mileway and M7 Real Estate across the Netherlands.
- **Citrix Podio:** Background programming for Nova Ambiente's online work platform and linking the platform to PowerBI.
- **Basin Diagnostic:** Carried out more than 50 unique basin diagnostics for ABINbev, Coca-Cola and Heineken in Africa, Latin-America, and the Middle-East.
- **Due Diligence:** Carried out due diligence studies for Fortune 100 companies in Peru, Nigeria, and Mozambique.
- **Process Optimization:** Helped optimize rice and sugarcane mills in Myanmar for the United Nations Industrial Development Organization (UNIDO).
- **Water Stewardship Workshops:** Carried out workshops in water stewardship as part of the "The Coca-Cola Company Water Stewardship program" in the Middle-East and Curaçao.
- **Water Stewardship Risk Assessment:** Was part of the water stewardship program for SABMiller breweries in eastern and southern-Europe, before SABMiller was sold to ABInBev.
- **Stakeholder Engagement:** Conducted meetings with local stakeholders and helped identify possible water sustainability programs.
